

STILGROUP
EVOLUTION

WE ARE STILGROUP EVOLUTION

A **furniture company** manufacturing finely crafted furniture based on timeless designs. In a 13,000 sqmt production plant our production lines are constantly updated thanks to an attentive maintenance which is the key to a final flawless product. Two generations of manufacturers make Stilgroup a solid and reliable reality in the field of the **Home Furnishing**.

Made in Italy

Our Technology

In an area of over 5,000 sqmt completely dedicated to the development of samples and prototypes we give life to our ideas and projects, a place where our and our clients' dreams come true, making the "Made in Italy" a must for our products.

Our flexible organization allow us to run small and huge productions always keeping our focus on the quality. Our clients vary from smaller retailers to larger distributors and interior designers. Always attentive to meet our customer requirements over production lead times we can guarantee fast and accurate deliveries.

Our philosophy

Good reasons to choose us

1

We care for any Customer

At Stilgroup every customer is an important partner we take care of from the moment we make contact to the installation at his client house.

After-sale support

customer satisfaction, supplier loyalty are not just words for us.

2

3

Innovation and research

have always been part of our culture adopting new solutions to provide maximum quality and at the same time a sleek design to satisfy our customers demands

Our staff is made up of over 90 skilled

trained workers and employees to ensure the most efficient production process and a professional client servicing.

4

Certified Products

All our eco-friendly products are guaranteed by our 100% Made in Italy supply chain.

The constant research for brand new and innovative materials, our cutting edge technology blend perfectly to satisfy any market worldwide.

Our TSCA Title VI boards are certified to limited harmful substances emissions to guarantee the production of a safe final product, without risks to health.
